TRADING IN WALL STREET

Limited Dealing Noted in the Early Market Operations.

Few Orders Received From Foreign Houses-National Lead Common Showing Strength and Animation, Pacific Railway Shares Rule at About Yesterday's Closing Prices.

NEW YORK, Oct. 10.-The stock market in the early dealings was extremely dull and irregular, changes resulted from the limited trading. A further recovery was shown in the London stock market following upon the apparently bettering chances for a pacific solution of the situation in South Africa, but foreign houses had very few orders in this market. There were no devolopments in the local situation over night of character to attract attention or influence prices. The stringency of yesterday's money market was generally referred to as disappointing, and apprehensions of high rates again today served to restrict the rating.

The industrial quarter was the most active division of the market, and, in the main, was firm. National Lead common

was particularly strong, and Federal Steel and American Steel and Wire were steady on fairly active dealings. The trading in the railway list was in very light volume. and resulted in slight and irregular fluctuations. Louisville and Nashville was de pressed at the opening of business, but it later recovered. St. Paul, the Pacific shares, and the other standard issues ruled at about their closing prices of yesterday.

This morning's market was dull and a trifle weak under the influence of the higher money rates suddenly pushed into prominence toward the close of yesterday's session. Prices opened off in most cases, and during the first hour went off to around and during the first hour went off to around the lowest price of yesterday. Later there was a revival, which during the morning, however, did not seem likely to be of much importance. The market is still pro-fessional in its character, and seems in-clined to continue so for the present. Buy-ing of securities, with care, on the weak spots is advised by the shrewdest brokers and traders.

The money situation is still the chief factor, and it cannot be doubted that this will improve greatly in the near future, ternoon. The banks have on hand now in excess of reserve requirement something like \$6,000,000, according to the best authorities. In addition to this, and probably of great importance is the form despite the advance in rates yesterday afgreat importance, is the fact that the Gov ernment will anticipate not only November interest disbursements, which amount to about \$4,500,000, but also the December disbursements, amounting to something like \$30,000,000. A large part of this money will find its way into the New York banks

The Steel and Iron securities were again prominent this morning, and among the strongest stocks on the list. The booming talk of the immense profits of the compan ies and of the dividends soon to be paid license. It appears, the collector's letter savors much of a fine, strong effort to advance the stocks. It it known that Keene, Gates, Houseman, McIntyre, and Wardwell and other prominent brokers were heavy buyers of American Steel and Wire, common, yesterday, and that Mr. Flower and his friends bought Federal Steel, com-

The earnings of the Northern Pacific for the fourth week of September show an increase of \$43,700; for the month an increase of \$209,453, and for the period since July 1, an increase of \$959,973.

The boom in general railway business is indicated to a certain extent by the cry from all over the country for more freight cars. It is said that nothing like the present car famine hås ever been seen be and this although the railways made what were expected to be adequate preparations for an immense business. It is said that the Pennsylvania, the Lake Shore, and the

Railway Enterprise in Guatemala. NEW ORLEANS, La., Oct. 10.- The latest news from Guatemala is that with three big bidders for the Guatemala Northern Railroad and prospects good for a sale of the property within the next thirty days, putting several millions into circulation the rate of exchange at the capital has fallen in three weeks from 800 to 500, and business conditions are much improved.
The three bidders are Collis P. Huntington, the Costa Rican Steamship Company, and Minor C. Reith, of Boston, head of the banana trust. It is believed that Keith and the Steamship Company will work to-gether. President Calerera wants \$1,500,-000 in cash and a guarantee of immediate extension and improvement, meaning the
